FOR IMMEDIATE RELEASE:

FOUR FBI AGENTS ARRESTED
FOR ASSAULT AND OBSCENITY

- Lawyers for Wounded Knee Defendants
Make Citizens' Arrest

Mark Lane and Luke McKissack, two attorneys for the Indian leaders arrested at Wounded Knee, announced ~~today~~ that four FBI agents were arrested ~~yesterday~~, this week in an historically unprecedented action, for assaulting lawyers and legal workers and for making obscene remarks in Rapid City, South Dakota.

~~Two~~ FBI agents were charged with attacking a private investigator, ~~Lake Headley, of Los Angeles,~~ while he ~~Headley, who works for the Wounded Knee Legal Defense/Offense Committee,~~ was conducting an official inquiry. for the Wounded Knee legal defense That assault was witnessed by Mark Lane.

The next assault took place as an FBI agent smashed a camera into the face of ~~Anthony Mullen,~~ a Colorado attorney who also works with the Defense Committee. That assault was witnessed by two attorneys, ~~Carol Libow of New York~~ and Roger Finzel of Washington, D.C.

The lawyers called the Rapid City Police Department and delivered the FBI agents into their custody. While the agents were being held at the Rapid City Police station another FBI agent knocked ~~Carolyn Hugar~~ a woman from the defense committee down the steps of the police station and uttered a series of obscenities. She made a citizen's arrest of that agent

With the assistance and cooperation of Rapid City Chief of Detectives, Stan Lukinski, Ms. Hugar, who is a photographer and investigator for the Defense Committee, effected a citizen's arrest of the suspect.

McKissack said today that harassment of the lawyers and legal workers for the Wounded Knee defendants, "had been severe for the last three months and appears to be part of a concerted governmental effort to deny the Indian people their day in court."

He added, "These efforts to intimidate the Defense Committee and interfere with its work will be met by an application for relief from the federal courts, especially since various agents yesterday threatened lawyers and legal workers and vowed to ' get even!'"

Lane said, "The circle now seems to be complete. First the federal government establishes conditions for the destruction of the Indian people. When they protest at Wounded Knee they are fired upon, some wounded, some killed, and others charged with the crime of attempted liberation with a penalty of 125 years in jail. When, through the legal system, the Indian people attempt to develop a defense to explain to the court, and the jury, and the American people why Wounded Knee was necessary, their lawyers and legal workers are assaulted by agents of the same government."

At the time of the FBI assault, the lawyers and legal workers were engaged in preparing for a defense motion by jotting down the license plate numbers of government vehicles and photographing the agents. The Rapid City Police Department and the City Attorney explained to the FBI agents that such conduct was legal.

Lane and McKissack pointed out that, "almost a score of FBI agents had moved into the building next to the Defense Committee office, that on numerous occasions agents in government vehicles have surrounded the law office during evening hours, and that there is evidence to

suggest that FBI agents have conducted electronic surveillance and bugging of the law office."

Lane and McKissack concluded, "It appears that the FBI agents have learned nothing from Watergate, for just as the former acting director of the FBI was testifying to his illegal conduct before the Ervin Committee the local agents were assaulting lawyers and legal workers in the streets of Rapid City.

Our clients were not here at the time," they said, "since they were involved in religious ceremonies at the Sun dance on the Rosebud Reservation."

For further information contact Luke McKissack, Mark Lane, John Sayre of the Wounded Knee Legal Defense/Offense Committee.

In Tulare County, where the United Farm Workers continued to demonstrate this week, two young pickets were shot and wounded yesterday. No arrests have yet been made in connection with the shooting. More than 1700 farm workers have been arrested in the past three weeks.

Cesar Chavez walked out of a meeting with Teamsters officials yesterday in Burlingame. Chavez, who had just learned of 25 new contracts that Teamsters had negotiated with Delano growers on Thursday, said "We have been stabbed in the back." There was disagreement among Teamster officials as to whether the contracts were authorized or not.

A major strike has been called by the Farmworkers for next week in Delano as the grape harvest begins.
