

HAIPHONG BLOCKADED- WAR ESCALATED!

Vietnamization has failed. Nixon and his allies in Saigon do not have the support of the South Vietnamese people. The Saigon army is crumbling.

To safeguard U.S. economic and political domination of South Vietnam, Nixon escalated the war. U.S. warships began blockading and mining Haiphong harbor and all other N. Vietnamese ports--risking a major confrontation with the Soviet Union.

Nixon pretends to be the sole seeker of peace. In fact, the South Vietnamese people, through their Provisional Revolutionary Government, have proposed the only just peace plan--the 7 point peace proposal.

*Nixon lies about a Communist takeover. The 7 point plan calls for a coalition government in S.Vietnam, once the U.S. ends all support for the Thieu regime.

*Nixon lies about protecting remaining American troops. The 7 point peace plan guarantees safe removal of U.S. forces and the immediate release of POW's once a withdrawal date is set.

*Nixon lies about a N.Vietnamese invasion of the South. Vietnam is one country--united against U.S. aggression and the dictatorship of Thieu.

Nixon is counting on the American people to support his escalation of the war. But the American people support a just peace and self-determination for Vietnam. We must let the Nixon administration know it!
