Dear friends,

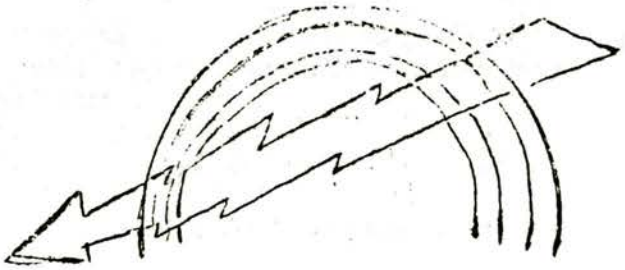

We are sending this communique to many papers and radio stations around the country. Our purpose is to help explain the role of ITT and the US in the overthrow of President Salvador Allende and the popular government of Chile which took place September 10. This communique accompanies the bombing of the Headquarters for Latin America of ITT, in New York City, which was carried out today.

Most press coverage of the police-state measures in Chile has accepted the version of the military junta now in power. We can try and break through this wall of misinformation by explaining what happened there, and why, and by letting the Chilean people themselves speak through our media.

If you decide to reprint an edited version of this statement, please use the paragraphs marked with * in the margin to best represent our meaning.

In hope for victory for the Chilean people -

Communique #14

Tonight we attacked the ITT Headquarters for Latin America in New York City, in support of the people of Chile, and to add our voice to the international expression of outrage and anger at the involvement of ITT and the US Government in the overthrow of socialist Chile. Every day brings news secretly carried out of Chile: Comrade Allende killed in battle, indiscriminate imprisonments, execution of thousands of sisters and brothers, aerial bombings of factories held by workers and the napalming of their homes. The Junta has declared a state of "internal war" against all who oppose them. Allende described these men in his last broadcast: "those whose force knows no humanity."

"But we have to see behind all them, there is something
behind the traitors and the gnawing rats,
an empire which sets the table
and serves up the nourishment and the bullets ..."

Pablo Neruda

Without the machinations of ITT and US government these events would not have happened. In spite of their insolent denials they stand indicted by their own words and deeds. The blood of thousands of people is on their hands.

INDICTMENT:

1. ITT ATTEMPTED TO SUBVERT CHILE'S ELECTIONS AND GOVERNMENT.

The secret ITT memos exposed in March 1972 explicitly state that in 1970 ITT financed Allendes opponent and cooperated with the CIA to try to create economic chaos in Chile and instigate a military coup. ITT offered the White House a million dollars to finance anti-Allende activities. In 1971 ITT sent to General Alexander Haig, Kissingers deputy, an eighteen point program which urged that "everything should be done quietly but effectively to see that Allende does not get through the crucial next six months."

2. ITT AND THE TWO OTHER MAJOR INVESTORS IN CHILE, ANACONDA AND KENNECOTT COPPER COMPANIES, ROBBED THE PEOPLE OF THEIR SUBSISTENCE.

Chile is a country with a great wealth of natural resources but her people are very poor. Her wealth has been extracted by these giant multinational corporations in the form of exorbitant

profits. ITT has assets there amounting to more than $200 million. Over the last forty years Anaconda and Kennecott have taken more than $4 billion in profits from Chilean copper.

3. THE US GOVERNMENT AND CORPORATIONS THREW UP AN INVISIBLE ECONOMIC BLOCKADE AROUND CHILE.

In his historic speech before the UN General Assembly on December 4, 1972, Allende warned:

> "We are aware that when we denounce the financial and economic blockade applied against us, it is somewhat difficult for world public opinion, and even for some of our fellow citizens, to understand what we mean. This aggression is not overt and has not been openly declared to the world; on the contrary, it is an oblique underhanded form of aggression, although this does not make it any less damaging to Chile.
>
> "We are having to face forces that operate in the half-light, that fight with powerful weapons, but that fly no identifying flag and are entrenched in the most varied centers of influence.

- The US government cut off non-military aid to Chile and pressured private banks to withdraw 85% of Chile's credit. This made it extremely difficult for Chile to acquire equipment, food and desperately needed medicine.

- Kennecott and Anaconda intentionally forced down the world price of copper by 20%, and tried to stop France, Germany, the Netherlands and Sweden from paying Chile for its copper.

- The US vetoed Chile's requests for long-term economic assistance from the World Bank and the Inter-American Development Bank.

- These economic pressured affected the daily lives of Chileans, created rapid inflation, rationing, and hardship. These were blamed on socialism and on Allende's government, but their origins were the policies of Nixon and his corporate allies.

4. THROUGHOUT THIS ECONOMIC BLOCKADE THE US CONTINUED TO GIVE MASSIVE FINANCIAL AND TECHNOLOGICAL SUPPORT TO STRENGTHEN THE CHILEAN POLICE AND MILITARY.

The US brings the most reactionary members of Latin American military forces here for training, supports and finances their coups when they return to their countries, recognizes their governments immediately and restores their international credit. This happened in Brazil, Bolivia, and Uruguay and now in Chile. These military forces are bolstered by CIA operatives, under the guise of State Department and AID advisors. This is the Nixon doctrine applied in Latin America the same way Vietnamization was the Nixon doctrine in Southeast Asia.

"In this way they decide from above, from the roll of dollars,
in this way the dwarf traitor receives his instructions,
and the generals act as the police force,
and the trunk of the tree of the country rots."

Pablo Neruda

The Generals have made their intentions clear. The purpose of the coup was not simply to overthrow Allende, but to wipe out the entire peoples movement. This is why the generals chose the code word "Djakarta" for their operation. Djakarta, the capital of Indonesia, was the scene of the most violent counter-revolution of the past twenty years. In 1965, with CIA support, General Suharto used his military overthrow of the Sukarno government as the occasion to murder over one million leftists in Indonesia. Shortly before the Sept. 10 coup a million people demonstrated in support of Allende. In the face of that strength, the only strategy the imperialists have is wholesale murder.

But the Junta cannot obliterate the history of the last three years by washing the slogans off the walls of Santiago or pulling down the statue of Che. Chile was a country in revolutionary process and the people have tasted power. Chile has been a stage for the mobilization of a people, for the spread of political consciousness. They began to reclaim their wealth through the nationalization of industries and redistribution of land. Workers seized and ran factories, and the homeless built poblaciones, new towns, homes and bases for organizing. Chile took on the problems of building a new human life on a continent where a child dies every minute of disease or hunger. Chile faced the pressure of time and the shadow of the U.S. which has consistently overthrown every democratically elected government in Latin America which has tried to make these changes: Arbenz in Guatemala, 1954, Bosch in the Dominican Republic in 1963 and 1965, and Goulart in Brasil in 1964.

Chile became a center for the Latin American revolutionary movement. Suffering under Nixon's blockade, she was willing to help break down the blockade the US has maintained against Cuba for over a decade. Chile opened her borders to the thousands of political refugees from the repressive governments of Brasil, Bolivia and Uruguay, giving many a new life.

La Via Chilena - the Chilean Road - is an expression of the continuation of the history and particular characteristics of the Chilean people. While it is right to keep a critical eye on any revolutionary process, it is essential to acknowledge and learn from the courage and commitment of Chile. To continue the struggle they will draw on their experience in building socialism. They are paying a heavy price for their contribution to the world revolutionary movement. They are fighting for all of us and it is our responsibility to help them succeed.

ITT is a symbol to the whole world of US greed and ruthlessness the way Dow Chemical Corporation, the manufacturers of napalm came to symbolize the Vietnam warmakers. ITT can be understood by millions of people as an international enemy. They have offices in every major US city and in seventy countries. They recruit on college campuses. They own the telephone company in Puerto Rico. They created the electronic battlefield in Vietnam. They made the avionics system that guided Nixon's bombs to the hospitals of Hanoi. They should be attacked throughout this country. This is one way to show support for Chile.

Another is by becoming truly informed and to seek out and study the words of those who participate in the Chilean revolution -- the poetry of Gabriela Mistral, Neruda, Allende's speeches and interviews and Fidel's speeches on his trip to Chile.

The people of Chile recognized Cuba is the key to the growth of continent-wide revolution, exemplified by Che Guevara's battle and death in Bolivia. A close friendship grew between the two countries. Now Cuba is the only socialist country in Latin America facing the US. We must do everything we can to defend Cuba.

The Chilean revolution has not been defeated. Some are fighting, barricaded in, some are organizing for a long resistance, some have gone underground. The enemies of Chile's freedom stand exposed. One Santiago worker vowed a few days after the coup:

> "We don't tell the soldiers anything at all and they know that some of us are helping to hide people who are leftists. So we shall all go back to work like good boys, keep very quiet and get ready for the next time. And then we shall have our revenge."
